uStream Two

Co-axial two-way true wireless stereo

Point-source imaging, without hunting for the sweet spot.

The uStream Two puts a 165mm woofer and a 32mm tweeter on the same axis, sharing one back plate and one magnet assembly, with a separate amplifier for each. 80W RMS per channel fills a large room without effort. Optical and HDMI ARC inputs, two RCA inputs and Bluetooth 5.0 all sit on the left speaker, and an aluminium remote handset runs everything from the sofa.
